

NATIONWIDE MARCHES AGAINST MASS MIGRATION

FLINDERS STREET STATION 12PM, AUGUST 31ST

BIG BUSINESS WANTS ENDLESS MIGRATION

Whether it's Coles and Woolworths, the Big Banks, Harry Triguboff, Universities or the Business Council of Australia - they all want 'Big Australia' (a population of 100m+ ASAP). Each migrant means they can sell another 365 days worth of food, or another mortgage. The only cost? Our nation.

REASONS ARE VARIED, BUT WE STAND UNITED

Whether you're concerned for our Culture, Wages, Traffic, Housing Supply, Water Supply, Environmental Destruction, Infrastructure, Hospitals, Crime or Loss of Community, we are stronger together! Don't leave this work to be done by your children.

THE MAJORITY IS WITH US

Polling by the Lowy Institute in June 2025 found that the majority of Australians think the number of migrants coming into the country each year is 'too high'. This is a transformation that we never sought, nor consented to. Our political elite ignore the views of the majority, yet call it 'Democracy'.

LABOR AND THE LIBERALS ARE COMPLICIT

In Bob Hawke's biography, he stated that there is an implicit agreement between the parties not to discuss migration. The Labor-Liberal uniparty, both controlled by their donors, had a 25% difference in migration intake at the last election. Same policy, different branding. It's time for change!

MORE INDIANS IN 5 YEARS, THAN GREEKS AND ITALIANS IN 100

And that's just from one country... We know migration has a cultural impact. This isn't a slight cultural change – it's replacement plain and simple. Australia is not an economic zone to be exploited by international finance. Australia is our home. If Albo and Ley won't make a stand, it's up to us!

MAKE YOUR VOICE HEARD

Join hundreds of thousands of Australians, in marching for Australia, across all capital cities nationwide.
"I'll meet you under the clocks" on August 31st at 12PM (Flinders Street Station).
